Re: Crime survivors' views on Trump administration's criminal justice agenda

A recent national survey of crime survivors reveals that a majority feel less safe since Donald Trump became president. Most victims of crime oppose the Trump administration's criminal justice agenda and prefer investments in rehabilitation and treatment over increased incarceration and the deportation of immigrants. Overall, the survey results show broad disagreement between the Trump administration and crime victims on the causes of crime and priorities for public safety policy and spending.

David Binder Research conducted 3,000 interviews of a nationally representative sample in May 2017. Of the 3,000 respondents, 847 (28%) self-identified as victims of crime and answered the questions below. Respondents included both victims of nonviolent crime and victims of violent crime, including the most serious crimes of rape or murder of a family member. The margin of error for crime victims is 3.4%.

Victims of crime are more likely to believe the country is off on the wrong track.

Direction of Country

<i>Generally, do you think things in the country are going in the right direction, or are things off on the wrong track?</i>		
	Right Direction	Wrong Track
Total	36%	55%
Victims of Crime	37	58
Victims of Violent Crime	37	59

Trump Favorable	34	34	17	9
Trump Unfavorable	72	12	3	4

Crime survivors strongly support providing support to victims and increasing drug and mental health treatment programs for people in the justice system. Policies that would increase deportations, expand private prisons, and increase enforcement of drug laws are less popular.

Criminal Justice Priorities, All Victims

I'm going to read a list of actions related to crime and criminal justice that the Trump Administration could take. For each I read, please indicate if you support or oppose the proposal.

	Support	Oppose
Providing support to victims of crime	86%	8%
Increasing drug and mental health treatment programs for people in the justice system	84	12
Increasing education and rehabilitation services for people in the justice system	82	11
Increasing illegal reentry punishment with a mandatory two-year sentence	47	45
Requiring prosecutors to seek the maximum sentences	45	47
Withholding federal funding from sanctuary cities	41	50
Increasing deportation of immigrants	40	51
Decreasing federal oversight of police departments	35	54
Providing police with military-grade weapons and artillery	34	58
Expanding the use of private prisons	32	57
Enforcing federal drug laws in legalized states	29	63
Reducing funding for the Violence Against Women Act	20	72
Allowing health insurers to consider sexual assault as a preexisting condition and deny coverage	17	76

Most crime victims believe Trump's comments about increasing crime rates are deliberate misinformation for political gain.

Comments on National Crime Rate, all victims

President Trump has said that crime is at an all-time high. This claim has been disputed by national media outlets that cite FBI statistics that say crime is near historic lows.

Which of the following statements come closest to your views?

President Trump is using misinformation and fear for political gain.	52%
The mainstream media can't be trusted. President Trump is telling the truth when no one else will.	36
